Subject: Powder Mill NDPES Permit
Date: Thursday, November 07, 2019 4:29:01 PM

Hi Sterg and Ted –

I'd like to set up a call to discuss the Powder Mill permit. We've been making progress and I want to check in with DES, mostly on developing the phosphorous limit, before we send it up for your review.

I'm not sure who should be on the call, but I would like it to include both your permitting and modelling folks, (b) (5). Next Tuesday is good if you have time that day. Please let me know. Thanks.

Damien
